

Henderson Engineers, Inc. (HEI) is pleased to make the following announcements:

Julie Pierce has been promoted to Vice President. Pierce is a registered Professional Engineer and LEED Accredited Professional with a B.S. in Architectural Engineering from the University of Kansas. She has over 16 years of experience in the design of lighting and electrical systems for commercial, institutional, religious, cultural, residential, sports, and retail facilities. She currently serves as the Director of Impact Illumination, a division of HEI, as well as co-leader of an internal MEP design team.

Jason Wollum has been promoted to Vice President. Wollum is a registered Professional Engineer and LEED Accredited Professional with a B.S. in Architectural Engineering from Kansas State University. He has over 14 years of experience as a project manager and electrical engineer for a variety of retail, restaurant and grocery projects. Wollum also leads HEI's forensic engineering group.

Andrew Knight has been promoted to Vice President. Knight is a registered Professional Engineer with a B.S. in Mechanical Engineering from Kansas State University. He has over 13 years of experience as a project manager and mechanical engineer for a variety of remodel programs centered around the retail industry.

Steve Berry has been promoted to Associate. Berry is a registered Professional Engineer with a B.S. in Mechanical Engineering from the University of Missouri and a Master's in Engineering Management from the University of Kansas. He has over 24 years of experience in the design and construction of mechanical and electrical building systems and is the Director of HEI's New York metro office.

Teresa Huser has been promoted to Associate. Huser is a LEED Accredited Professional with a B.S. in Architectural Engineering from Kansas State University. With over 12 years of experience in the design of electrical systems, she has served as a project manager and lead electrical designer for various commercial, retail and office building facilities throughout the country.

Chris Thibodeaux has been promoted to Associate. Thibodeaux is a registered Professional Engineer with a B.S. in Architectural Engineering from Kansas State University. He has over eight years of experience in the mechanical design of projects for the retail industry.

Tony Welter has been promoted to Associate. Welter is a registered Professional Engineer and LEED Accredited Professional with a B.S. in Mechanical Engineering from Colorado State University. He has over nine years of experience in the design of mechanical and refrigeration systems for the retail industry.

-more-

Mark Chrisman has been promoted to Associate. Chrisman is a registered Professional Engineer with a B.S. in Mechanical Engineering and Master's in Mechanical Engineering from the University of Missouri-Kansas City, and is currently working on his doctorate in Mechanical Engineering with an emphasis in Fire Protection. As a member of Fire Dynamics, a division of HEI, his experience includes fire protection design on a variety of projects including healthcare facilities, retail shops and office buildings nationwide.

Mike Fall has been promoted to Associate. Fall is a LEED Accredited Professional with a B.S. in Architectural Engineering from Kansas State University. He has over 18 years of experience in project management and mechanical design for various retail, restaurant, corporate and government projects.

Robert Harris has been promoted to Associate. Harris is a registered Professional Engineer and LEED Accredited Professional with a B.S. in Architectural Engineering from Kansas State University and a Master's in Business Administration from Baker University. He has over 16 years of experience in project management and mechanical design for various retail, higher education, recreation, and restaurant projects.
